NOTED ITALIAN WOMAN VISITS UNITED STATES

NEW YORK, Nov. 22.—Countess Maria Loechi of Rome, who, as the guest of the United States Government is on a six weeks' tour of this country to survey social, educational, and political conditions relating to women and report to the government of Italy, declares that "Italy's liberated womanhood is preparing to take a big part in the rebuilding of the devastated Northern provinces. It is the dawn of a new day," she said, "in the development of our nation."

Grateful for the part the United States has taken in the war, Countess Loechi made public at the request of a former Premier of Italy, Luigi Lussati, the latter's overseas toast to America and to Americans delivered to her just before she sailed. It follows:

"Born in a divine heart throbbing, they grow greater now in the throbs of the human heart. Born to deliver themselves from the multifarious religious tyrannies of Europe, today they rise to save Europe from military tyranny. At the dawn of the marvelous life shines God's liberty, as a crown of sacrifice and redemption. At midday they harvest, as an immortal reward, the deliverance of oppressed nations."

The Countess is a young woman, dresses simply and speaks fluently, English as well as French and Italian. She is a writer on sociological subjects, a teacher of French literature

In a college in Rome and, in addition, is on the staff of a technical school. An ardent suffragist and one of five women, representatives of the Italian Feminine Patriotic League, appointed to aid the government authorities in revising a plan for the readjustment of labor after the war, the Countess Loechi says, "the future is bright with promise for the women of Italy more than 200,000 of whom are at work on farms and in munition plants."

NEW FARMING COLLEGE BUILT IN FAR NORTH

FAIRBANKS, ALASKA, Nov. 20.—The new Alaska Agricultural College and School of Mines under construction here about 100 miles from the Arctic Circle, is believed to be farther north than any other institution of higher learning in the world. It will train its graduates to help develop Alaska along its two main lines—agriculture and mining. Authorities assert this northern soil holds big things in both food and metals.

Both United States government and Alaska territorial funds are being used by the college. Congress, in 1915 designated a site for the school and set aside agricultural and mining lands in the Tanana Valley for the support of the institution. Last year the Alaska Territorial Legislature voted \$20,000 for the construction and purchase of equipment. An annual congressional appropriation of

\$50,000 is expected to help maintain the school.

The Fairbanks United States Government Agricultural station, now located on the college site, will become part of the new institution and will continue to draw its revenue for support from the federal government.

The college cornerstone was laid July 4, 1915. The site is high on a hill overlooking the city of Fairbanks, the Tanana River and the railroad the United States government is building between Seward and Fairbanks. The concrete walls are completed and work will continue as long as the weather permits.

A. Kalina, a prominent resident of the Main district, bought supplies in this city yesterday. He reports that the new flour mill there will begin operation in a few weeks.

ENGLISH ROYALTY CURTAILS FUEL

LONDON, Nov. 22.—King George and Queen Mary with their court have returned to London to a cold, fireless Buckingham Palace.

Owing to the real shortage and to the fact that the country will soon be on its winter's rations, the King has given orders cutting down the use of coal in all the royal palaces to a strict minimum well within legal rationing.

Almost every fire-place in the Palace, in none of which fires had been lighted have had bricks placed in them to reduce the consumption of coal. Lighting of passages, corridors, anterooms and the private apartments of the King and family has been reduced by half.

TERROR REIGNS OVER BLEEDING RUSSIA NOW

ARCHANGEL.—(Correspondence of the Associated Press).—Russia is fast bleeding to death thru a reign of terror which is worse than that of the French Revolution, and it is time the nations of the earth came here to put down one of the world's greatest evils. President Nicholas Tschakovsky of the Provisional Government of the North, told a correspondent of the Associated Press today.

"It is no longer a question of politics," he continued. "Inside the Bolshevik lines the situation is worse than the French reign of terror. Victims executed now must be counted by the tens of thousands. All hair-splitting political reasons aside the world must know that the Bolsheviks are no longer even a party, but are now merely a group of men determined to hold what they have seized by the merciless slaughter of those who oppose them."

"It is now only the question of putting down an evil. Persons escaping from Moscow, Petrograd and Volodga and reaching here bring indisputable stories of the executions. The situation seems beyond the control of some Bolshevik leaders who themselves are revolting at the bloodshed."

President Tschakovsky said he recently cabled to President Wilson urging the immediate dispatch of more troops.

"Nothing can bring Russia out of this chaos until the Bolshevik terror has been quashed by the force of arms," said Tschakovsky. "The force now here is unable to do this quickly. Meanwhile hundreds are dying daily."

"The world must understand that Bolshevism, like imperialism, is a foe to democracy. It is in Russia a mere dictatorship, a group of men holding away by force of arms. They raise every straw, falsifying logic to justify themselves. As an example they now declare that the proposed league of nations is only another scheme to give power to the bourgeoisie against the working men."

"Perhaps the world will naturally ask what Russia is doing to help herself," said Tschakovsky. "And I can only answer that we are doing our best. A recent example is the reorganization of the Government of the North. Now every party and every class is represented. Forgetting politics they are turning their efforts toward putting down the Bolshevik evil. We are mobilizing our forces, but the Allies must help."

President Tschakovsky is a Socialist.

Hungarian Statesman Shot Down by Soldier

COUNT STEPHEN TISZA

Several attempts have been made on the life of Count Tisza, who, according to Budapest dispatches, was assassinated by a soldier who shot him in the street. Count Tisza, twice premier of Hungary—from 1903 to 1905 and from June 6, 1913, to May 23, 1917—was long one of the storm centers of Hungarian politics. Until he retired from the premiership he was opposed to the pacifists, but within the last year he urged peace and in a speech on Oct. 19 he declared he no longer had hopes for an Austro-German victory.

LONDON TO SHOOT FOLKS THRU AIR LIKE BULLETS.

London, Nov. 22.—London will have high speed tubes for passenger traffic after the war if plans outlined by F. W. C. Kearney materialize. Mr. Kearney said surveys had been made for two tubes, run mainly by gravity on the switchback system, which would carry trains from Cricklewood, North London to the Oval, South London in twelve minutes allowing for eleven stops; while from the Crystal Palace to the Strand the journey would be covered in ten minutes with seven stops.

A proposal for a tube between East Ham and Woolwich would shoot the passengers under the Thames, a journey of half a mile, in fifty seconds.
